Ah, got it. I think a half hour of prep before the interview is more than adequate. Thanks for setting it up! -JB

Great . . I included Tom as the Communications Liaison so he'd know about the interview request. We have our standard 9:30 meeting, so maybe we could plan to meet at 10 or so, and schedule the interview with Tony for 11. I can check to see if that works for Tony. It looks like every else is clear in the morning (that is, if everyone has their calendar up to date on Outlook).

Rusty

Hey Rusty - Carter's the lead for Rosemont in ERO, but maybe Tom is pinch hitting?

We did have the meeting with Rosemont on Wed the 7th. Elizabeth, Rob and I should all be around on Monday the 12th to speak with Tony. Morning's better, and we should build in a little prep time. -JB

Hi Tom and Jason:

I got this inquiry this afternoon, and wondered if you had some time to talk on Monday to speak with Tony. Was there a discussion with Rosemont that we can talk about?

Thanks!

Rusty

Rusty,

I'm requesting an interview with Jason Brush, or others from your Region 9 wetlands staff on the proposed Rosemont Mine - 404 permit-- Clean Water Act -- mitigation plan.

On January 25, EPA's Region 9 wetlands staff wrote the Corps a letter criticizing that mitigation plan as seriously inadequate. Since then, the Rosemont Copper mining company has written a response letter, and has added at least one or two new properties to its mitigation proposal. I understand from talking with company officials that they held a meeting with EPA staff on this proposal--either in person or telephonic, not sure which--on this past Wednesday, Aug. 7.

So, is there a way I could get EPA's reaction to Rosemont's updated 404 mitigation proposal in an interview sometime next week?

Thank you and sincerely,

Tony Davis
